Leake Awarded.

In the numerous cases brought by Lee Camp, No. 1. Confederate Veterans, in the Chancery Court of the city against bidders at sales made of a part of the property known as the "Soldiers' Home," to enforce specific performance of the bids, a decree, it will be remembered, was entered by the court in December last—Judge W. S. Barton satting for Judge Leake—against Dr. H. Wythe Davis. This was a test case, requiring specific performances. The bidders, however, being advised by ecounsel that the camp had no power of sale, or if so, that it was not validly exercised, and therefore that a good title was not tendered and could not be conveyed, have appealed in the test case against, Dr. Davis, whose name was used for the purpose of litigating the questions involved, an appeal has been granted, and a supersectors to the decree awarded by one of the judges of the Supreme Court of Appeals, It is supposed that the case will be heard at the November term of the court in Richmond. meeting while he presented the name of

To-day at 12 o'clock the contract will be awarded for the building of the new female ward at the Eastern Lunatic Asylum. This ward is for the accommodation of the patients whom it is, not necessary to keep in strict confinement. The material will be brick and fron, and the building will be made as near fire-proof as the appropriation will allow. Captain M. J. Dimmock is the architect and will superintend the construction of the building.

OPENING ACTIVE AND HIGHER—
The opening of the market was active and higher, but the pressure of seck-offering in realization of profits accrued queckly changed the temper of the denines, and with the exception of Sugar and Elchmond and West Print, and later of a few specialities, including Manhatan, the whole list subsided into dulness, while prices gave way all along the line. The advances, even in the Hichmond and West Point securities, were afterwards lost, and a drooping temper marked the deniming throughout the session, the fluctuations also being for qualifractions only in all but a few cases—Burlington, Sugar, and Reading ranging as much as I per cent, only. The buil manipulation in the leading stares failed to draw out buyers, and the effect to auvance the market was streen up with the result of the usual dulness.
